

## TECHNICAL RIDER

\* Static show to be presented in the street, if it is possible in an intimate space. Alternatively, we can perform it in an indoor space, preferably not in conventional scenes.

**Duration of the show:** 35 minutes

**Requirements for the stage:** 6m X 6m (optimal)

**Set up:** 2h30 / **Dismounting :** 1h

### Technical needs:

-LIGHT: 14 PC's 1.000W

-SOUND: sound equipment appropriated to the space and 2 monitors

For street performances, sound equipment and general light (in case of darkness).

### To be provided by the organizer:

- Wheels chair
- Iron and ironing board

**Important note:** For performances in indoor spaces please consider that we smoke during the show.

### Technical needs (if there is a talk after the show):

-Two microphones, one with wireless for the public and another for the artists with thread.
