

VAGABOND

# VAGABOND

Two fierce fugitives with no hesitation keep fighting for their freedom not merely to survive but thrive. Vagabond is a hilarious escape story of two women being chased and raced. They are breathless and restless on the height of the wire, fragile on top of the glass bottles. The riffs of the bass echoing, the faith is taken to their own hands.

Vagabond is a pit stop to feminine vigour following the escape of Thelma & Louise down the roads of California. Come along with this circus spiced up with a Cadillac and hear the purring of the motor, the duo as a burning fuel for this rural rock story.
