**Inspiring and breath taking show  
that will elevate your festival to  
new heights.**

CAGED is a show like you've never seen before, with walking on rope between high buildings, interactive video art, original live music and more surprises. CAGED is designed as a site-specific performance that

will adjust itself to any given space and thrive on the new possibilities each space allows. The show was performed in street theatre festivals, circus festivals, dance festivals and arts festivals.

It can be performed outdoors as well as big indoor spaces.
